Mr. B. J. Smith  
Juken New Zealand Ltd  
P.O. BOX 1239  
Gisborne  
**New Zealand**

Dear Brendan

This letter is to confirm that the National Laboratory of EWPA has been testing formaldehyde emissions from Juken New Zealand Limited East Coast – Gisborne Mill’s Structural LVL and plywood products for Australasian and Japanese markets.

As of the date of this letter, the abovementioned JNL mill has been certified to the following formaldehyde emissions:

Product	Standard	Emission Rating Certified
Structural LVL	AS/NZS <sup>1</sup> 4357 Structural LVL	E0
	JAS <sup>2</sup> SE-11 Structural LVL	F☆☆☆☆
Structural Plywood	AS/NZS 2269 Structural Plywood	E0
	JAS SE-1 Plywood	F☆☆☆☆

Routine testing is ongoing to comply with both the Japanese and the Australian / New Zealand standards and any changes to the above will be communicated to you directly if and / or when they occur.

Yours sincerely,

**Brian Latta**  
Quality Systems Officer – EWPA
